DANGER/PELIGRO

PRECAUCION AL USUARIO: Si Usted no lee ingles, no use este producto hasta que le etiqueta haya sido explicado ampliamente.

Copper Sulfate is a valuable dietary supplement in mixed feeds for cattle, hogs, poultry and other agricultural animals. It is recommended that Copper Sulfate be added to a premix before mixing into a final batch of feed. This will insure a better distribution of the copper micronutrient in the final feed. For guidance, it is recommended that you consult an animal nutritionist, State Agricultural Experiment Station or State Extension Service.

PRECAUTIONARY STATEMENTS

Danger: Causes severe eye and skin irritation. Harmful if absorbed through the skin or inhaled. May cause skin sensitization in certain individuals. Avoid contact with the skin, eyes or clothing. Avoid breathing dust. Protective clothing including goggles should be worn. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

Caution: Care should be taken in the use of Copper Sulfate in feeds for sheep. Sheep have a low tolerance for copper. Concentrations beneficial to other animals have been shown to be toxic to sheep. It has been demonstrated that copper can be toxic at levels above 30 ppm and lethal at 50 ppm in feed.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Drink promptly a large quantity of milk, egg white, gelatin solution, or if these are not available, large quantities of water. Avoid alcohol. Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage.

If splashed in eyes: Immediately flush eyes with plenty of water for at least 15 minutes and get medical attention.

If spilled on skin: Remove contaminated clothes and shoes and immediately wash skin with soap and plenty of water. See a physician.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms. Do not contaminate water by cleaning of equipment or disposal of disposal of wastes.

STORAGE AND DISPOSAL

Store in a cool dry place. Do not contaminate food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container. If container is damaged place container in a plastic bag. Shovel any spills into a plastic bag and seal with tape.

Improper disposal of Copper Sulfate is a violation of Federal law. If copper waste cannot be disposed of by use, contact your State Environmental Control Agent or the Hazardous Waste Representative at the nearest EPA Regional Office for guidelines. **Container disposal:** Completely empty package by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of package in a sanitary landfill or by incineration if allowed by State and local authorities.
